Sheriff Timothy K. Cameron receives St. Mary's Chamber of Commerce 2011 Public Servant Award

In 2008 the St. Mary's County Chamber of Commerce initiated a Public Servant Award to recognize people in the public sector who, in the performance of their duties and interaction with business, display a clear understanding of the business perspective and value the role that business plays in the community. Nominations for the award are made by members of the Chamber of Commerce. Those nominations are then reviewed and evaluated to select a recipient. The St. Mary's County Chamber of Commerce 2011's Public Servant Award recipient is Sheriff Timothy K. Cameron.

"The Sheriff's Department provides vital services for the people of St. Mary's County and it calls for leadership to not only be dedicated, but involved, not only in dealing with public safety issues that exist but being proactive in positioning that organization to be prepared to meet future challenges. Sheriff Cameron brings a career's worth of knowledge to his position and, more importantly, personal dedication to the community. The business community appreciates the Sheriff's willingness to deal with issues that may not impact most citizens, but could severely damage a business. Sheriff Cameron has shown that protection and safety is not just an individual issue but is also a community concern wherever it exists." (Christopher Longmore, Chair, St. Mary's County Chamber of Commerce)

Congratulations Sheriff Cameron.
